

SECURE. FLEXIBLE. INNOVATIVE.

iPRO™

Introducing the all-new iPRO, the latest innovation from the world's currency transaction leader. iPRO is the secure and flexible way to increased profitability because it comes with one of the most sophisticated sensing and anti-stringing packages we have ever created. iPRO's modular design means it can quickly and easily replace an existing UBA head for instant improved performance. One look, and you'll be ready to play like a pro.

FEATURES

- 100% compatible as UBA "plug-and-play" upgrade
- Sealed bill path for dust, liquid & light protection
- 7 wavelength optical and magnetic sensors
- Dual exit sensors with anti-stringing drum device
- ICB Optional add-on
- Faster note-to-note speed
- Highest first time acceptance rate
- Down and Up Stacker

BENEFITS

- Cost-effective technology & anti-counterfeit upgrade
- Lowers cost of ownership & increases uptime
- Best counterfeit protection
- Best anti-stringing in the industry
- Dramatically improves accountability and drop process
- Increased profit potential and customer satisfaction
- Delivers better user experience
- One product for Multiple OEM applications
