

Hopper R1

“Reduce maintenance costs to Zero with a Hopper of maximum reliability, security and high speed that guarantees extended trouble-free operation.”

UNIVERSAL

Designed for all possible currencies worldwide and standard protocols (parallel, ccTalk).

RELIABLE

Key players of the industry trust Azkoyen and more than 200.000 hoppers are manufactured at our facilities every year. Payout coin security and low maintenance.

VERSATILE

A combination of different models and accessories offers a solution for any application. Patented multi-coin technologies.

The widest range for coin extractions all over the world.

The coin hoppers designed by Azkoyen Payment Technologies are a benchmark in the main markets and have managed to set industry standards worldwide. Azkoyen hoppers are renowned for their reliability, payout speed, coin counting precision and minimum maintenance, due to our meticulous quality control system in design as well as in manufacturing process.
